

DERMEDICS™ Ultimate Corrective Serum

Ultimate Corrective Serum is created for intensive regeneration of the damaged extra-cellular matrix and for deactivation inflammation which is responsible for tissue degradation.

ECM = acronym from: **E**xtra-**C**ellular **M**atrix.

ECM is a network of non-living tissue that provides support to cells.

The term “extra-cellular” literally means “outside the cell” - which explains where the matrix is located.

Overview

- Stimulates synthesis of collagen, elastin and fibronectin
- Rebuilds deficiencies in the structure of the skin (wrinkles, stretch marks, post-acne scars)
- Re-volumises the structure of extra-cellular matrix (ECM)
- Provides bio-lifting by re-densifying the skin
- Improves skin cohesion (anti-sagging efficacy)
- Supports extra-cellular matrix in binding tissue together
- Improves architecture of elastic fibres
- Improves resistance to gravity
- Provides visible facial contour lifting and jaw line shaping
- Reduces double chin

Directions for use

- Daily skin care of face and body
- Unisex: for women and men, for skin of all types
- Advanced signs of aging
- Deep wrinkles and lines
- Stretch marks on breast, stomach, thighs or buttocks
- Post-acne scars
- Skin sagging
- Lack of skin elasticity and firmness
- Delicate and sensitive skin
- Inflammation (one of the causes of extra-cellular matrix degradation)
- Double chin removal

Active Ingredients

Lipidipeptide Tyrosyl-Arginyl + Rutin + Palmitoyl Oligopeptide + Palmitoyl Tetrapeptide-7 + Phaseolus Extract (Green Bean) + Mannuronate Silanol + 50 kDa Hyaluronic Acid

Packaging:	50ml retail size 100ml professional 200ml professional
