

DERMEDICS® PEEL SERIES | CATALOG '2016 – INFORMATION FOR DISTRIBUTORS

<b>General product view</b>	<p><b>Mandelic Peel 40% by DERMEDICS®</b> is strong in action, deeply penetrating acid peel in gel, obtained from hydrolysis of bitter almond extract, designed for professional exfoliating therapies in beauty salons.</p> <p>Multi-functional, tailored to suit a variety of skin types and conditions aiming to stimulate skin regeneration, lightening and to treat acne by its anti-bacterial and keratolytic properties. Gel peel has low pH of 2.78 to provide intensive therapy that is close to medical grade. Ideal before needle-free mesotherapy treatments with MESO serums by DERMEDICS®. Product must be neutralised to stop acid activity.</p>
<b>Active agents*</b>	Mandelic Acid 40%
<b>Safety</b>	Free of preservatives, alcohol, colourants and allergens.
<b>Innovations</b>	<p><b>Innovative formula of peel in special gel consistence provides unique benefits, thus increases efficacy of therapies:</b></p> <p><b>High comfort of patient:</b> painless therapy with amazing effects.  <b>No downtime:</b> skin trauma and redness reduced almost up to zero.  <b>High comfort for the operator</b> (even for less experienced therapists): easy application by fingertips in disposable gloves = accessories that are typical for liquid peels (bowl, brushes, etc.) are not needed anymore!  <b>Safe application and easy control:</b> gel peel stays in a place of application without any unexpected dripping that allows to control reactions of skin in all treated zones.  <b>More possibilities:</b> elimination of pain during exfoliation provides possibility of prolonged duration of treatment – that makes that peel can be applied in layers (depending on needs).  <b>Multi-targeted therapies:</b> all peels are combinable = they can be administered as multi-layers in a session, or can be applied over consecutive sessions.  <b>No aggression for skin:</b> acid peel in gel has reduced level of evaporation to eliminate aggressive and excessive hyper-exfoliation of stratum corneum as side effects (*).  <i>(* Exfoliation of stratum corneum is a natural side effect of treatment with standard formulations of chemical peels – namely: liquid peels.  The faster exfoliation of the stratum corneum – the shorter time of therapy with acids (because of pain and skin trauma).  DERMEDICS® acid peels in gel allow to concentrate on the main role of activity of peels: on acceleration of dermis to its self-renewal by intensive, whilst safe stimulation of fibroblasts (cell boost). Main activity of peels from DERMEDICS® is done inside the skin – in a location where it should be done to get effective therapy. Exfoliation as side effect of the activity of peels by DERMEDICS® is noticed of course - but in non-aggressive, mild way.</i></p>
<b>Directions for use</b>	<ul style="list-style-type: none"> <li>▪ Skin type: for oily and combination skin of all ages</li> <li>▪ Fitzpatrick scale: skin type 1-6</li> <li>▪ Unisex: for women and men</li> <li>▪ Skin prone to acneic inflammations</li> <li>▪ Clogged skin pores with black heads and white heads</li> <li>▪ Skin imperfections and discolouration post-acne</li> </ul>
<b>Effects</b>	<ul style="list-style-type: none"> <li>▪ Encourages skin regeneration (cell booster)</li> <li>▪ Provides anti-bacterial and keratolytic efficacy</li> <li>▪ Stimulates collagen synthesis</li> <li>▪ Provides skin detox (elimination of toxins)</li> <li>▪ Balances production of sebum and unclogs skin pores</li> <li>▪ Gently exfoliates the skin without aggressions</li> </ul>
<b>Treatments types</b>	<ul style="list-style-type: none"> <li>▪ Ideal for skin with acneic tendency</li> <li>▪ Reduction of imperfections and acne</li> <li>▪ Normalising oil skin condition</li> <li>▪ Minimising symptoms of photo-aging</li> <li>▪ Reduction of blemishes and discolouration</li> </ul>
<b>Application area</b>	Face, front part of neck and décolletage, as well as other skin areas depending on needs.
<b>INCI</b>	Propylene Glycol, Mandelic Acid, Water/Aqua, Hydroxyethylcellulose, Sodium Hydroxide.
<b>Cautions</b>	<ul style="list-style-type: none"> <li>▪ For external use only. Keep out of the reach of children.</li> <li>▪ Contraindications: hypersensitivity to any component of the formulation.</li> <li>▪ Patch test recommended prior main use.</li> <li>▪ Cover eye area with cotton pads before use.</li> <li>▪ Avoid lips area and/or protect them with thin layer of cream.</li> <li>▪ Not to be applied on damaged skin.</li> <li>▪ Wear disposable gloves during all procedure.</li> <li>▪ Neutralisation demanded.</li> <li>▪ Avoid UV expose. SPF protection demanded during a day.</li> <li>▪ CALM biomimetic lamellar cream recommended to rebuild lipid layer of skin (night care).</li> <li>▪ Respect the peel manual provided by DERMEDICS® to avoid complications.</li> </ul>
<b>Results*</b>	Pure and fresh skin instantly.
<b>Additional benefits</b>	<b>Economic benefits:</b> special consistence makes the product highly efficient in use.
<b>Unit package</b>	Professional: 100ml airless bottle
